

A photograph of a person's feet hanging from the edge of a weathered wooden dock. The dock is made of dark, textured wood and has a metal ring attached to its side. The person is wearing yellow leggings. The background shows a calm blue lake reflecting the sky, with misty, forested mountains in the distance. A white curved line and a white rectangular frame are overlaid on the image, framing the text.

Future Transportation Energy solutions

SKAL 9.11.2023

NESTE

2021

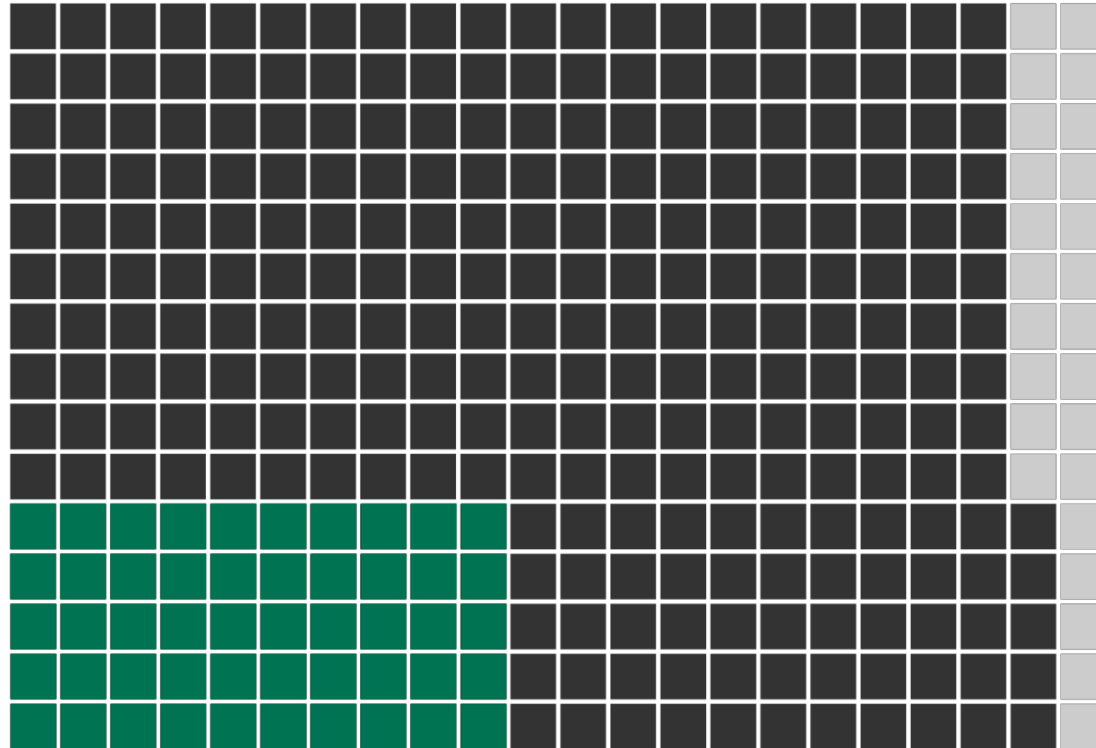

demand for
liquid/gaseous fuels
for transport in the
European Union
330 Mtoe

current
renewable fuels
used for transport in
the European Union
(8% of total)

27 Mtoe/a

 Remaining demand for fossil fuels

 Renewable fuels

2030

estimated demand
for liquid/gaseous fuels
for transport in the
European Union
305 Mtoe

estimated volume
of renewable fuels
for transport in the
European Union
50 Mtoe/a

 Remaining demand for fossil fuels  Renewable fuels  Reduced demand (efficiency & electrification)

Neste's tailored EV charging solutions to B2B customers support reducing their GHG emissions

One-stop-shop with Neste brand, reporting capabilities and mobile app

Tailored solutions based on customer needs (e.g. fleet depots, logistic hubs, workplaces)

Slow and fast charging

Charging as a service based on a monthly service fee or customer invests in equipment

EV dashboard and emission reporting to support daily operations
